RADARpilot 720° is a registered trade mark of in-innovative navigation GmbH. © 2010 in-innovative navigation GmbH. All rights reserved.

RADARpilot 720° LE is a type tested Inland-ECDIS navigation system providing a cost-effective entry to the use of radar chart overlay. Based on the established and reliable technology of RADARpilot 720°, the light edition RADARpilot 720° LE comprises the functions as follows:

- ▶ integration of radar, GPS and electronic river chart in one display
- ▶ display of AIS data
- ▶ trip computer
- ▶ storing and export of screenshots
- ▶ display of VHF channels relevant

- ▶ upgrade possible to RADARpilot 720° full version
- ▶ compact dimensions 22 x 9 x 27 cm
- ▶ on-board power supply (24 V DC) or standard AC power supply (230 V AC)

The systems runs utterly quiet on a state-of-the-art industrial PC without wear parts as there are rotating hard disk or fan.
